

## Temporary Access Restriction

Turnpike Field will have restricted access from the evening of Monday 19th November until Wednesday evening 22nd November, to allow for all of the grass to be cut with a flail mower.

The pedestrian gate on Shropshire Street will be closed during that time.

The field is being cut, free of charge, by a local farmer and so the two day restriction provides him the flexibility to cut the grass as and when he can.

The public footpath from Green Lane to the canal will remain open, however we would urge that anyone using this footpath exercises extreme caution if work is in progress. Advisory signs will be in place at both ends of the footpath.

The Working Group is sorry for this inconvenience, but the cut will improve the health of the grass.
